

Where It Comes From.
People who wear false hair will be interested in the announcement of a strange discovery made at Antwerp. In that city a bale of human hair, weighing 172 pounds, was stolen from a railroad station. It was afterward learned that the hair had been clipped from the heads of lunatics and convicts in public asylums and prisons.

Ancient American Sleeping Cars.
L. Xavier Eyma, a Frenchman, who came to this country in 1847, wrote an article in L'Illustration of Paris, published July 22, 1848, giving his experiences on the railroads of the United States. He says that at that time the Baltimore and Ohio Railroad had a length of seventy leagues and that the cost of the road was \$116,744 francs, the receipts \$3,384,496 francs and expenses \$1,964,741 francs. He also gives considerable space to the interior arrangements of the sleeping cars used at that time and says that, "they are actually houses where nothing is lacking for the necessity of life and are divided into compartments and sleeping rooms, some for men and some for women. Each room held six beds or rather little couches in three tiers along the sides. He winds up his account by saying that valuable were not particularly well taken care of, as in America there "were no such things as sneak thieves."

AGAIN THE ASSASSIN.

M. Labori, Dreyfus' Chief Counsel, Shot Down on Way to Court.

DOCTORS SAY HE CANNOT LIVE

RENNES, Aug. 14.—Two men ambushed Maitre Labori, counsel for Dreyfus, and one shot was fired, hitting Labori in the back. M. Labori fell in the roadway. He is still alive.
Maitre Labori left his house alone for the court at about 6 o'clock this morning.
His residence is situated in the suburbs of the town, about a quarter of an hour's walk from the Lycee, the route being along a solitary road beside the river Vilaine. He had reached a point half way on his journey when two men who had evidently been lying in wait for him, rushed out of a narrow lane and one of them fired a single shot from a revolver. The murderer was only a couple of yards behind the victim, and the bullet struck Maitre Labori in the back.

The wounded man uttered an agonized cry and fell flat on his face. The murderer immediately fled through the lane from which they had emerged and both escaped.
At 7:30 o'clock it was announced that the bullet had entered the stomach; that there was no outward bleeding and the physicians believe that M. Labori will die from the wound.
A later story has it that M. Labori was shot in the temple by a man who fired a revolver at him outside the court and that the miscreant was arrested.

MR. CROKER TALKS.

Says He Has No Candidate for the Presidency—Froese Bryan.

NEW YORK, Aug. 14.—Richard Croker, referring to W. J. Bryan, said: "Bryan is one of the greatest men the United States has ever produced. He is closer to the people than any other man, and is trusted by the masses, who understand him and appreciate him. But that does not mean that I shall work for the nomination of Mr. Bryan or that I think he is the only man fit for the nomination. He is as good a man and leader as could be found. But I have no candidate."

"It is for the convention to name the man and the convention will not meet for at least ten months. It would be a travesty on popular suffrage to pick the candidate before the people's delegates meet, and I shall have no part in making such a selection. I shall not even try to influence the New York state delegation for anybody."

"Will Tammany make another fight against free silver as it did at the last election?" was asked.
"I don't know," said Mr. Croker. "There's lots of time and every issue may change except the one against trusts and against imperialism and slaughter."

ATTOU ISLANDERS DESTITUTE.

Revenue Cutter Grant Finds Them in Starvation Conditions.

SEATTLE, Wash., Aug. 14.—A private letter from Captain Slamm, of the revenue cutter Grant, now with the sealing patrol in Bering sea, states that the inhabitants of Attou Island were found by him in starvation conditions, but in no immediate danger of starvation. The inhabitants, numbering seventy-three, twenty-three men and 50 women and children, were in a pitiable condition. Many of the children were partially naked and their elders were but little better off. They were dependent for bodily warmth upon the common practice of huddling five or six together, in their "barabassos" or native huts.

The only fuel on the island is a scant supply of driftwood. The crew of the Grant gave the people all spare clothing.

Policeman Rawlings and Charles Daniels Settle a Grudge With Revolvers.

DALLAS, Texas, Aug. 14.—A sensational duel to the death occurred here yesterday between Policeman A. P. Rawlings and Charles A. Daniels. Revolvers were the weapons, the distance three paces and both of the principals are dead. Eight or nine shots were fired and plate glass windows for a block around were shattered. Rawlings lived ten minutes and Daniels lived exactly an hour. The former was shot three times and the latter once. Rawlings was intoxicated and an old grudge was the cause.

PERSPERATE WORK OF RECRUIT

Kills Two Police Officers in a Cold Blooded Manner.

DENVER, Col., Aug. 14.—Two police officers were murdered here at 1 o'clock yesterday morning by a recruit belonging to company L, Thirty-fourth volunteer infantry, now stationed at Fort Logan. Three soldiers had been raising a disturbance in Louis Klipfel's saloon and Officer Tom Clifford was notified of their action and asked to keep his eye on them.

He was about to accost the soldiers, when one of them turned on him, placing the muzzle of a revolver to his breast, sent a bullet through his heart. Clifford expired almost immediately.

All three of the soldiers then started to run, but two of them were overtaken and captured. The one that did the shooting, however, continued running, with Officer W. E. Griffith on a bicycle in pursuit. The fleeing man dodged through alleys and open lots for several blocks, Griffith patrolling the streets.

On Sixteenth street, near the union depot, the officer saw the man making for the viaduct. He shot at him twice, the soldier returning the fire, mortally wounding Griffith. He died a few minutes later while being conveyed in an ambulance to the station.

The entire police and detective forces of the city were sent out after the man and the country for miles around has been patrolled and searched without getting any trace of the double murderer.

WILL BE A BUMBOAT.

Famous Methodist Church in Evanston, Ill., Will Be Put to Ignominy.

CHICAGO, Aug. 14.—Evanston's famous old Methodist church, the building in which Frances E. Willard read her essays as a girl graduate, the building in which Abraham Lincoln spoke, and a landmark in Evanston since its erection, in 1837, is to pass the rest of its days in ignominious service. Mounted on a raft and anchored in the lake off Evanston, beyond the pale of the local prohibition law, the old church will be used as a bumboat, from which beer, whisky and all the ordinary brands of hard drinks will be dispensed.

A Fool For Luck.

LOUISVILLE, Ky., Aug. 14.—Because a girl dared him, William Crowe borrowed Gertrude Moore's bathing suit and at 4 o'clock yesterday afternoon dived into the river from the Big Four bridge, a similar leap from which killed Thomas Heavey just a week ago. Crowe, who is an athlete of local repute, made the descent of 90 feet successfully and expresses a willingness to repeat the performance. Gertrude Moore is a fisherman's daughter. Crowe is a sailor, who, at least, stood second in her favor. His bridge-jumping feat was the result of bantering by the girl and his rival.

Will Purchase Crow Lands.

CROW INDIAN AGENCY, Mont., Aug. 14.—The government commissioners have effected an agreement with the Crow Indians which will become a treaty when ratified by Congress. About 1,000,000 acres of land will be purchased on the northern end of the Crow reservation from Fort Custer to Yellowstone river and from Pryor creek to eastern boundary of the reservation, embracing the lower Big Horn and other smaller streams. This leaves the Crow 2,500,000 acres and will make them independent in time and furnish homes for thousands of civilized people.

"An Insult to Kentucky."

FRANKFORT, Ky., Aug. 14.—Governor Bradley, discussing the interview with Congressman A. S. Berry, of Newport, in which the latter declared Bryan might be shot if he persisted in coming to the state in the interest of Goebel, said: "I cannot think Mr. Berry made the statement attributed to him. In any event such a statement is an insult to Kentucky and wholly without foundation or excuse. Mr. Bryan would be in no more danger in Kentucky than in any other state in the Union."

ARE IN DIRE NEED OF HELP.

Victims of Hurricane Need Large Food Supplies.

1,000 DEAD, 100,000 DESTITUTE

WASHINGTON, Aug. 14.—Two dispatches from Governor General Davis of Porto Rico, giving original details of the fearful havoc wrought by the hurricane of last week, were received at the war department yesterday. They were immediately sent to Secretary Root, who already has taken measures for dispatching relief to the people of the island. The secretary expects that the transport McPherson, with a large quantity of rice and beans, will leave New York today, and this will be followed by other vessels as fast as arrangements can be made for sending supplies. He thinks it is the duty of the government to make provision for feeding the people until the aid voluntarily given by the citizens of the country reaches them, and he will exhaust every means at his disposal to this end.

The following are the dispatches received by the War department from General Davis:

The true state of affairs throughout the island is not yet known because of total destruction of all telegraphic connections and great destruction on all roads. Not more than one-fourth of the towns have been heard from but enough is known to warrant the statement that one-fifth of the dwellings in the island are totally destroyed and their owners without any shelter whatever or any food beyond what has been saved from the debris. The coffee crop and most of the trees are gone, and thus reliance for support is gone.

Fully one-third of the people subsist entirely on fruit and a small degree on tubas. All the former is destroyed and much of the latter are rotting in the ground. A great many thousands of cattle are drowned and the debris carried down the rivers is strewn over the ocean with the wreck of the stores and the dead bodies of animals. The deaths from falling walls and drowning will number more than a thousand and may be several times this number. The state of distress is very great and when green fruits saved from the debris are consumed, the suffering will be very great.

Food of all kinds is needed, especially rice, beans and codfish, which has been the main support outside of fruit. Cheap cotton clothing is also needed, for thousands rushed naked from their dwellings at night when the gale broke. Medicines are also needed most pressing, especially quinine and other simple medicines. I estimate that at least 100,000 people are homeless and destitute.

General Davis' second dispatch: Further but still incomplete reports confirm previous cable reports as conservative.

May Cesare McKinley.

CHICAGO, Aug. 14.—A convention of the Afro-American council of colored men will be held at Bethel church beginning Wednesday and lasting until Saturday evening. The arrests were made on the charge of plotting to overthrow the present government, according to a semi-official note.

M. Deroulle was taken into custody by four gendarmes and was driven to Paris. On his arrival here he was incarcerated in the conciergerie prison. The arrest of M. Marcel-Habert is expected.

The police have closed the offices of the Patriotic League, which are now guarded by gendarmes.

RETURN OF "JIM" CUMMINGS.

Noted Bandit and Member of the James Gang at Home Again.

LIBERTY, Mo., Aug. 12.—"Jim" Cummings, who was a member of the James gang, has come back to his old home in the northern part of Clay county after an absence of twenty-five years. He was indicted in 1874 for stealing a neighbor's horse and he will now answer to the charge if called upon. He may not be prosecuted, as the horse was recovered and it is doubtful if he could be convicted.

Cummings has been in various parts of the country and states that he served as a deputy United States marshal at Eureka, Springs, Ark., for a while. He has been reported dead several times. His name was recalled vividly when, in 1887, Witlock, the man who robbed the Adams Express company at St. Louis, assumed it.

The petition not only names the Standard Oil company as defendant, but also a number of other firms and corporations which are alleged to be owned and controlled by the Standard Oil company.

Labor Creates the Value.

A pound of raw cotton is worth five cents; when made into fabrics that pound is worth twenty-five cents to one dollar. Massachusetts has 8,000,000 spindles and spins 1,259,000 bales of southern cotton to sell back to the south. The south hews the wood and draws the water; it does the grudging of producing the raw material for the north to manufacture and get rich upon.

A comparison of the earnings of men and women in the state of New York shows that 69.2 per cent of them earned between \$50 and \$115 in the quarter, while 37.8 per cent earned between \$75 and \$100; the number that earned more than \$150 in the quarter (equivalent to \$2 a day) was insignificant. On the other hand, more than one-half the men earned more than \$150 each.

B. & O. Railroad Uses Crude Oil.

The Baltimore and Ohio railroad is now using crude oil on its tracks, though not so extensively as lines which do not use crushed stone for ballast. There are many road crossings, stations, etc., where dust flies after the passage of fast trains, and these places are being heavily coated with oil. So far the results have been gratifying.
